

Exp. No: 5

Determination and plotting of Electric potential difference between any two points in free space medium separated by a distance R.

Aim:

To write program for Electric potential difference between two points in free space medium using SCILAB.

Software required:

- SCILAB version 6.0.1

Case 1: A positive charge with fixed $r_1=1$ m r_2 varying.

Case 2: A negative charge with r_1 fixed and r_2 varying

Case 3: Both points $r1_{r1}$ and $r2_{r2}$ vary with a positive charge.

Result:

Thus, the program was verified for Electric potential difference between two points in free space medium using SCILAB was successfully.
